

DIMENSIONS AND ELEVATIONS IN METRES

The diagram illustrates a runway layout and its elevation profile. The top portion is a plan view showing the runway's width, centerline, and various markings. A 'ROAD' is indicated on the left side, and a 'MOBILE OBSTRUCTION' is marked near the center. A 'Nominal glide path 3.0°' is shown on the right. The bottom portion is a cross-section showing the runway's elevation relative to a datum. The scale is in feet (0 to 60) and metres (0 to 18). A 'MOBILE OBSTRUCTION' is labeled on the left side of the profile.
